| EMVCo | ***Contactless Kernel C-8 Implementation Conformance Statement Version 1.1b*** |

| **ICS Reference Number and Validity Period** (for EMVCo administrative use only) | |
|---|---|
| **ICS Reference Number:** | |
| **Valid from:** | |
| **Valid to:** | |

***Notice:*** ***This ICS form must be completed for products implementing the Kernel C-8 submitted to receive EMVCo Contactless Product testing and compliance/approval. ICS form must be completed in its entirety. It shall be provided along with the corresponding "ICS - Contactless Product" in case of C-8 Kernel submission in a Contactless Product.***

| **Part I - Administrative** | | |
|---|---|---|
| **Product Provider Identification** | | |
| M | Company Legal Name: (As listed on the Letter of Registration) | |
| M | EMVCo Registration Number: | |
| **Laboratory Identification** | | |
| M | Company Legal Name: | |
| M | EMVCo Registration Number: | |
| **ICS Submission Type** | | |
| M | Select submission type | <Select> |
| C | For any submission except Initial, please provide the EMVCo letter of approval reference number of the previously approved C-8 Kernel (if already granted) | |
| M | Is this ICS a replacement of a previously accepted ICS? | ☐ Yes ☐ No |
| C | If Yes. please provide the reference number of the previously accepted ICS | |
| C | If Yes, please provide the reason for replacing the ICS | <Select> |
| C | If Yes, please provide details of ICS replacement | |

| Product Type submitted for Approval | | |
|---|---|---|
| M | Select the Product Type submitted<br>Note: like any other C-x Kernel, if it is a Contactless Product submission containing C-8 Kernel, the Contactless Product ICS must be also provided (not requested in case of a C-8 Kernel standalone submission). | <Select> |

| PART II – Product Identification | |
|---|---|
| **C-8 Kernel Application Name**<br>This is the name of the overall C-8 Kernel whether the Kernel is split in several submodules or exists in a single module. In case the Kernel is in a single physical location, the C-8 Application Kernel Name maybe the same as Kernel Name | |
| **C-8 Kernel Version** | |
| **C-8 Kernel Checksum Value** | |
| **C-8 Kernel Test Configuration File Name and Version**<br>(Provide the identification you have assigned to uniquely identify the batch of all Test Configurations used during the testing session) | |
| **C-8 Kernel Product Test Application – Name and Version (for Information only)**<br>(Provide the identification you have assigned to uniquely identify the Product Test Application used during the testing session) | |

**Device/Terminal(s) Name within which the C-8 Kernel will be tested (referred to 'As tested in' Name):**

The C-8 Kernel may be contained within a single physical location, module, or library in which case the entries above must be complete. However, when the C-8 Kernel is split across several physical components devices (e.g.: server, mobile etc.), all hardware components must be fully described below (Only first line if a single location, multiple line if multiple location):

| Device / Terminal HW Name | Type of Device | Kernel Name (or sub-kernel if multiple location) | Kernel Version (or sub-kernel if multiple location) | Kernel Checksum (or sub-kernel if multiple location) | OS Name (or sub-OS if multiple location) | OS version (or sub-OS if multiple location) |
|---|---|---|---|---|---|---|
| | <Select> | | | | | |
| | <Select> | | | | | |
| | <Select> | | | | | |
| | <Select> | | | | | |
| | <Select> | | | | | |
| | <Select> | | | | | |

| | |
|---|---|
| **PCD (Level 1) Approval Reference[1]** | |

## PART III – EMV Specifications

| | |
|---|---|
| **EMV Specification Date & Version:** | EMV® Contactless Specifications for Payment Systems - Book C-8 - Kernel 8 Specification Version 1.1, June 2023 |
| **EMV Specification Bulletins Date & Version** | EMV® Specification Bulletin No. 302, 1st Edition, March 2024<br>EMV® Specification Bulletin No. 310, 1st Edition, March 2025 |

Copyright ©2025 EMVCo, LLC. All rights reserved.

## PART IV – Test Payment Applications & Capabilities

| Automation | Values |
|---|---|
| **Does the product support the optional signals?** | - CONFIG:<br>- TEST_INFO: |
| **Does the product support the transaction data processing through the ACT signal?**<br><br>**Note:** A product not supporting the transaction data processing through the ACT signal will return 'ACT_ACK:NOTSUPPORTED'. See further details in the Testing Environment Requirements. | ☐ Yes ☐ No |
| **Does the product support PCD-bypass interface?**<br><br>**Note:** If the PCD-bypass interface is supported, then the 3 signals APDU_ACTIVATE, APDU_CMD and APDU_RESP must be supported. | ☐ Yes ☐ No |

| Implementation options | Values |
|---|---|
| Does the submitted kernel implement the **Data Exchange / Data Storage**? | ☐ Yes ☐ No |
